Step 1

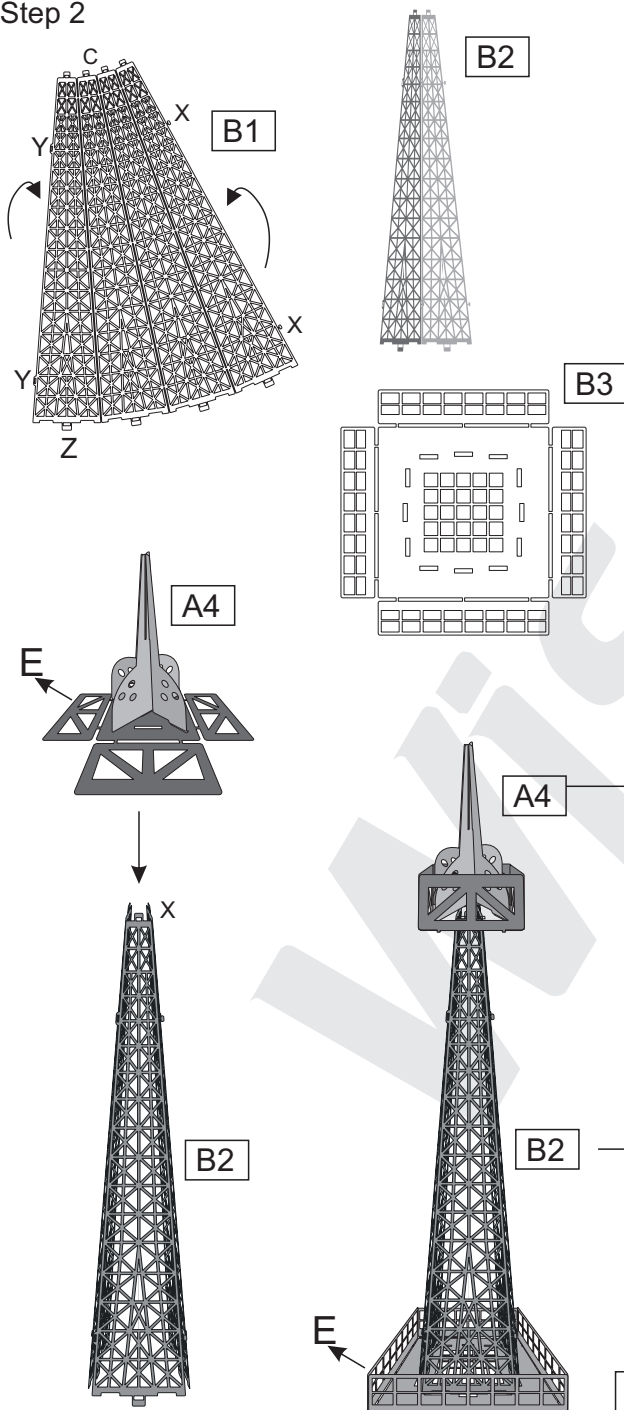

* Place part A2 on top of part A1 and bend the tab marked X underneath.

*Place part A3 on top of part A2 and bend the tabs marked Y underneath.

* At the end of this step, the assembly should match the shape of part A4.

Step 2

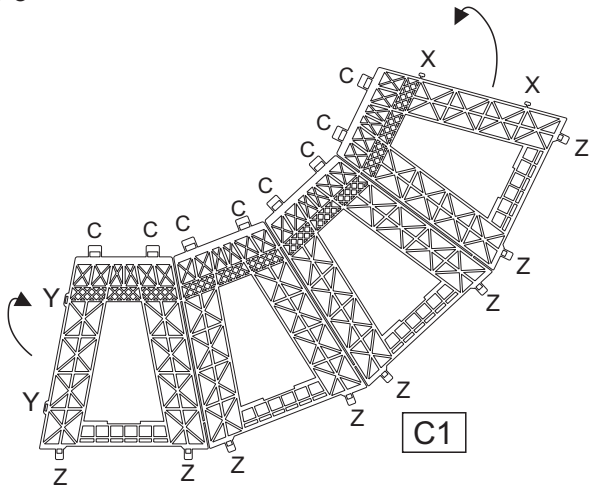

*Bend part B1 in the direction of the arrows, as shown in the figure. Insert the tabs marked X through the holes marked Y and bend them. At the end of this step, the part should look like B2.

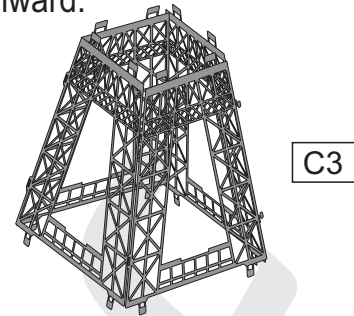

*Place part B2 onto part B3, aligning the Z tabs with the corresponding holes, and bend the tabs from underneath.

*Place the A4 part you created in Figure 1 onto part B2, and bend the tabs of B2 marked C downward from the top. Bend the edges of A4 marked E upward. After completing this step, the assembly should look like B4.

Step 3

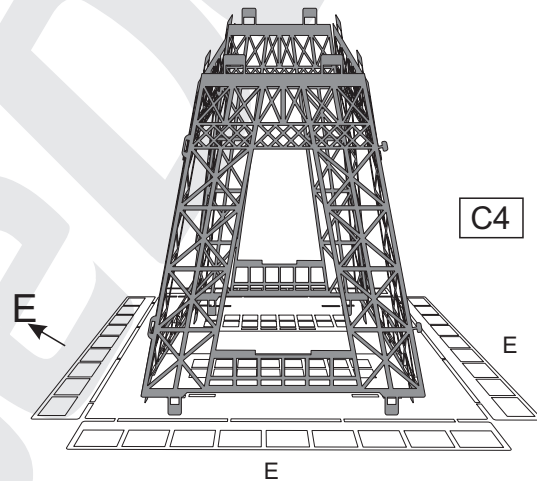

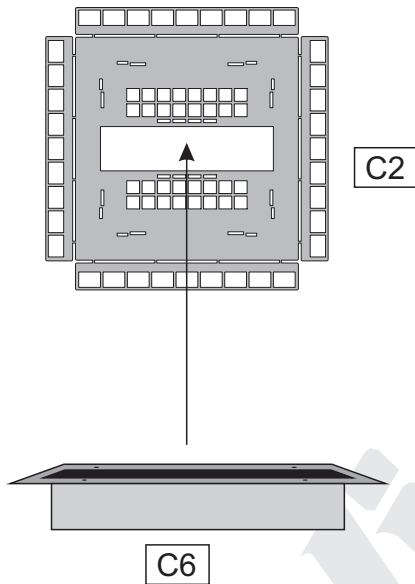

* Bend part C1 in the direction of the arrow. Insert the X tabs through the Y holes and bend them inward.

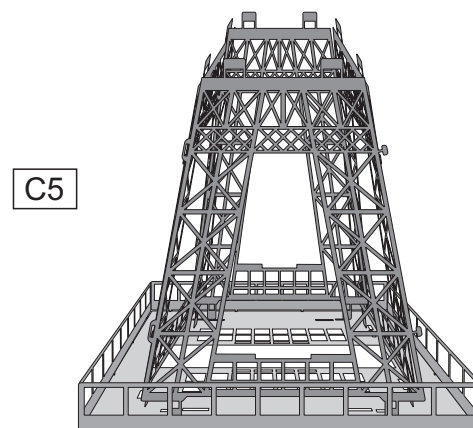

* Place part C3 on top of part C2 and bend the tabs marked Z underneath.

* At the end of this step, the assembly should match the shape of part C4.

*Bend the edges marked E upward.

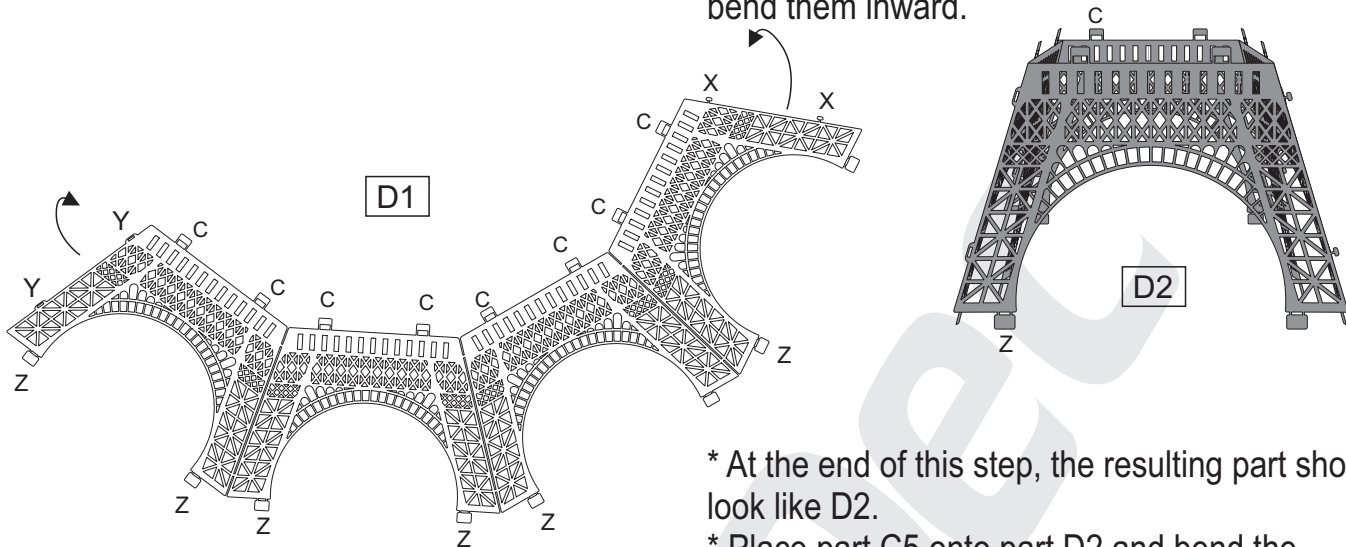

*Place the fireplace into the space indicated by the arrow..

* At the end of this step, the assembly should match the shape of part C5.

Step 4

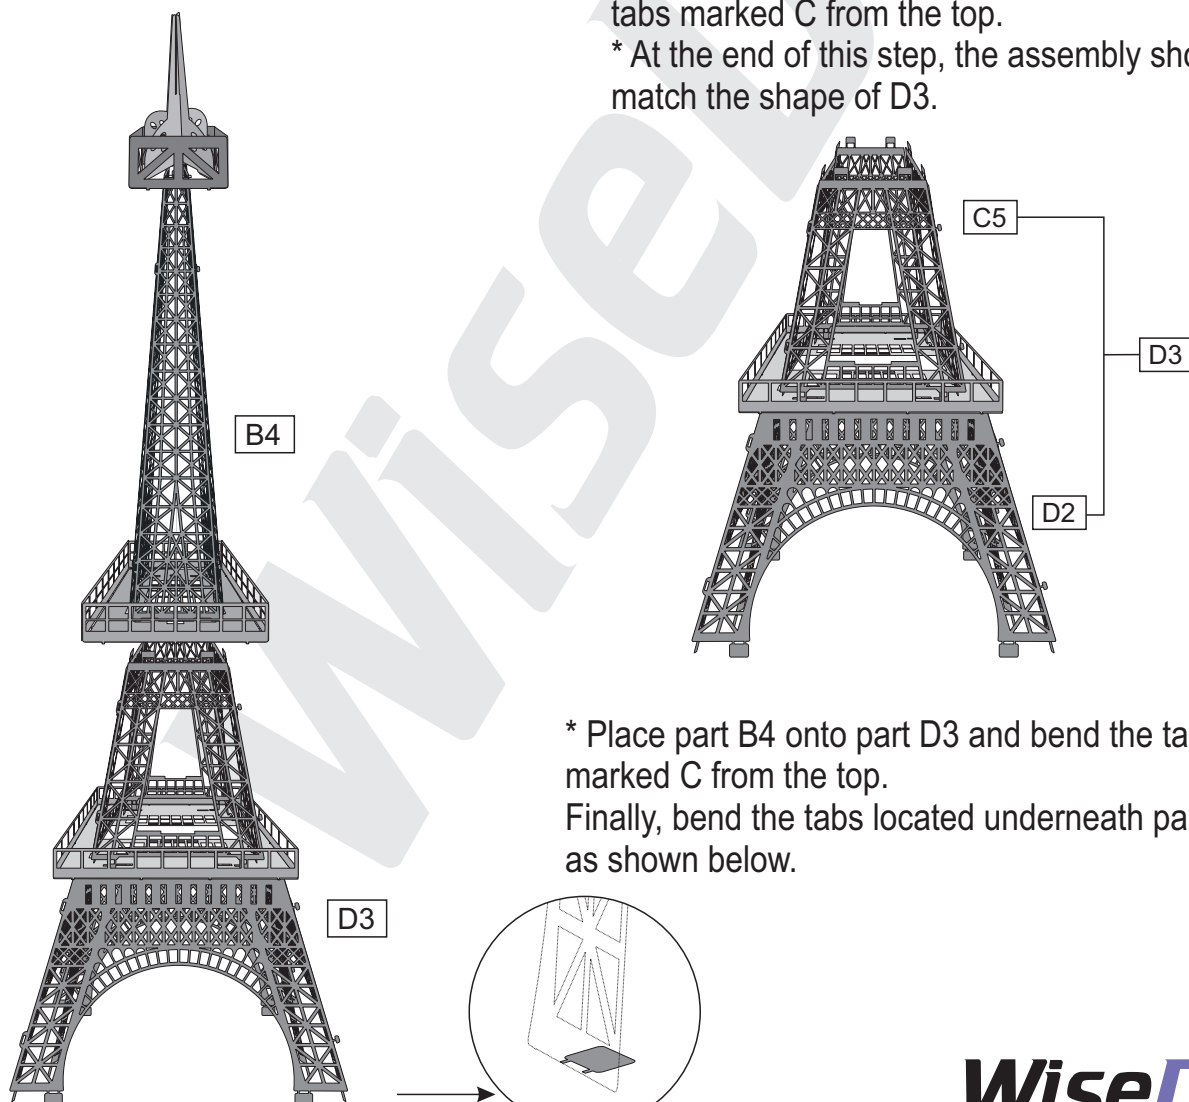

* Bend part D1 in the direction of the arrow. Insert the X tabs through the Y holes and bend them inward.

* At the end of this step, the resulting part should look like D2.

* Place part C5 onto part D2 and bend the tabs marked C from the top.

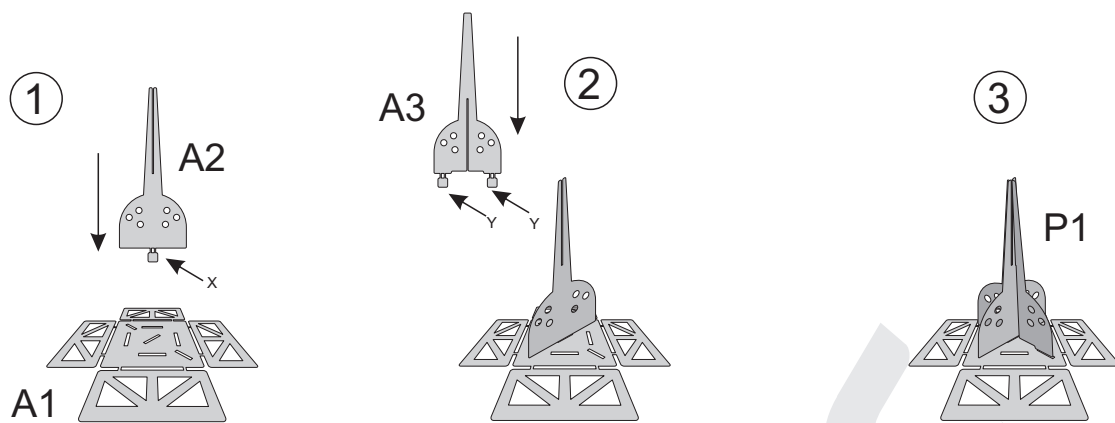

* At the end of this step, the assembly should match the shape of D3.

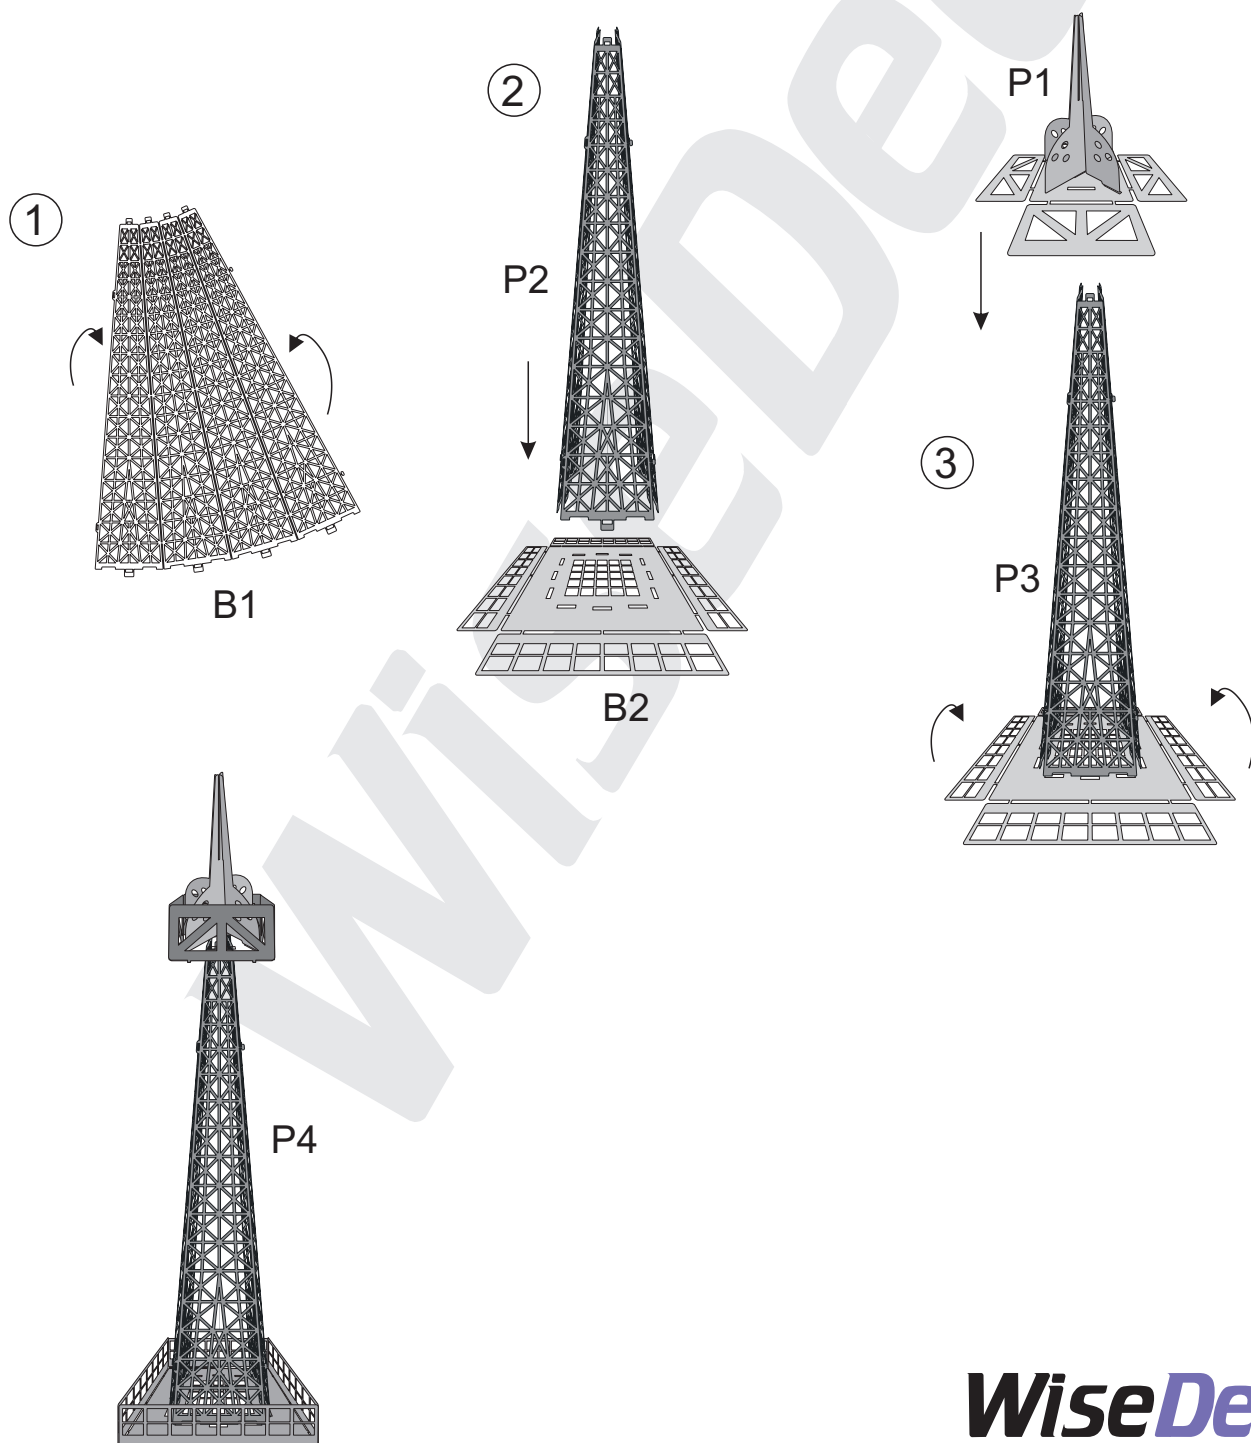

* Place part B4 onto part D3 and bend the tabs marked C from the top.

Finally, bend the tabs located underneath part D3 as shown below.
